

”Neck Only Breathers” Laryngectomy Emergency Box

Abby Harper, Henry Oldershaw, Will Wills-Wood and Fiona Kelly
November 2023

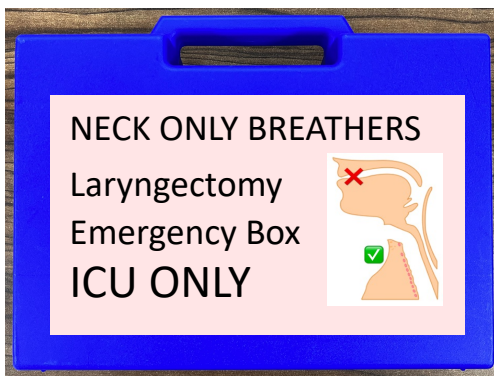

Cannot be oxygenated via mouth!!

If red flag signs present – call for help and phone 2222 to fast bleep 7333 (3rd On-Call Anaes.). Remove algorithm from wall and commence at bedside. Ask for airway trolley and slim (3.8mm) bronchoscope.

Use contents of new ICU emergency box at each stage

Box to accompany patient at all times – including for transfers. Remember to bring back from ward once handed over as ward box is different
