Statement in relation to COVID-19 case

James Scott, Chief Executive of the Royal United Hospitals Bath NHS Foundation Trust, said:

“Sadly, we can confirm that a man who was being cared for at the Royal United Hospital, and had tested positive for COVID-19, has died.

“The patient, who died on 18 March, was in his 80s and had underlying health conditions.

“His family have been informed and our thoughts and condolences are with them at this difficult and distressing time. Out of respect for their privacy we will not be commenting further.”

Ends

Notes to Editor:

The World Health Organization has announced that 2020 will be the Year of the Nurse and Midwife to commemorate the 200th anniversary of the birth of Florence Nightingale. Our nurses and midwives are a big part of the RUH family and throughout the year we will be celebrating the work they do, going above and beyond every day to give our patients compassionate care.

The Royal United Hospitals Bath NHS Foundation Trust provides acute treatment and care for a catchment population of around 500,000 people in Bath, and the surrounding towns and villages in North East Somerset and Western Wiltshire. The hospital provides healthcare to the population served by four Clinical Commissioning Groups: Bath & North East Somerset CCG, Wiltshire CCG, Somerset CCG and South Gloucestershire CCG.

Chair:
Alison Ryan

Chief Executive:
James Scott

The Trust provides 759 beds and a comprehensive range of acute services including medicine and surgery, services for women and children, accident and emergency services, and diagnostic and clinical support services.

In 2015 The Royal United Hospitals NHS Foundation Trust acquired the Royal National Hospital for Rheumatic Diseases (RNHRD) NHS Foundation Trust. The RNHRD treats patients from across the country offering services in rheumatology, chronic pain and chronic fatigue syndrome/ME, cancer related fatigue and fatigue linked to other long term conditions such as multiple sclerosis.

The RUH is changing - we have an exciting programme of redevelopment underway transforming our site and further improving the services we provide. The Trust has opened the purpose-built RNHRD and Brownsword Therapies Centre and is now working towards the new Dyson Cancer Centre. For more details visit: www.ruh.nhs.uk/about/fit_for_the_future
