

Appointments are available:

- **4pm - 8pm Tuesday to Thursday**
- **9am - 5pm on Saturdays**
(subject to availability)

Depending on current hospital policies, the number of people that may accompany you to your scan may vary. This will be discussed with you at the time of booking.

All of our additional services are provided at the RUH with access to pay and display parking.

With the exception of the 3D/4D baby scan, all scanning packages include three thermal images for you to take home. You can also purchase these additional items:

- **USB with images of your baby and heartbeat movie - £20**
(included free with the 3D/4D baby scan package)
- **Additional prints - £5 each**

Please speak to the Sonographer at the time of your appointment.

Private Maternity Service

Our NHS maternity services will provide you with the care you require during your pregnancy, birth and postnatally with your new baby.

We pride ourselves on listening to our families and, in response to your feedback, we now offer additional private services if you feel this is the right decision for you.

At the RUH, we offer a range of additional private maternity scans for various stages of your pregnancy.

These private scans are optional and additional to the routine NHS 12 and 20 week ultrasound scans that are important for checking your baby's anatomy.

If you choose to have an additional private scan, you can be assured that this will be completed by a highly qualified and experienced Sonographer using the latest scanning technology.

We have the following private scans on offer:

BabyView: Early Pregnancy Reassurance Scan

Early pregnancy can be a worrying time, so between 7 and 15 weeks we offer the option of a reassurance scan to reduce any anxieties you may have. You will still be offered an NHS screening/dating scan at 12 weeks.

Duration: 15 minutes. Cost: £80

BabyView: Biological Sex Scan

If you would like to find out the sex of your baby, we can confidently assure you of your baby's sex with 97% accuracy. This scan can be booked from 16 weeks gestation. You will still be offered an NHS 20 week scan to check your baby's anatomy.

Duration: 15 minutes. Cost: £80

BabyView: Additional Scan

We know it can feel like a long time between having the 20 week scan and meeting your baby. We offer you the choice of a scan during this time that will check your baby's growth and heartbeat. You will also be provided with a well-being report to take home with you.

Duration: 15 minutes. Cost: £80

BabyView: 3D/4D Baby Scan

Between 24-34 weeks, a 3D/4D scan is an exciting way to meet your baby before birth. You may even see your baby move, yawn, smile or sucking their thumb in live motion.

Duration: 30 minutes. Cost: From £120

For more information about each scan please visit:
